

BST11 ERP Overview

BST11 ERP: Built by PMs for PMs

Get your project managers and teams out of Excel and into the AEC industry's first consumer-grade, project-driven and collaborative ERP solution.

Discover What Our Users Love About BST11 ERP

- ✓ **Beauty & Brawn**
Enjoy a sleek, consumer-grade experience with all the robust and sophisticated capabilities you rely on.
- ✓ **No More Clutter**
Say "goodbye" to menus upon submenus and so on, and say "hello" to clean, simple micro-focused apps.
- ✓ **Live in 5**
Complete only five project fields in BST11 ERP to get a project up and running in seconds!
- ✓ **Anytime, Anywhere**
Access BST11 ERP project details on any device, whether you're at the coffee shop, a client site or anywhere in between.
- ✓ **Connect It All**
BST11 ERP can seamlessly connect to your existing technology investments for a holistic, digital project center.

“ BST11's enhanced user interface and mobile capabilities are improving the overall project management experience tremendously. Plus, we hear all the time that our employees are in the field and unable to do this or that, but now they can get their work done wherever they are, which is huge!

– Sonya Leckner, CFO, Morrison-Maierle

About BST Global

BST Global designs, develops and deploys the AEC industry's first suite of AI-powered project intelligence™ solutions specifically for the world's leading architects, engineers and consultancies.
